OBJECTIVE

Dedicated teacher with experience in instructing students from primary to high school levels, including O Levels. Skilled in creating engaging lesson plans and motivating students to achieve academic excellence. Seeking a teaching role where I can apply my classroom management and curriculum development skills.

EDUCATION

Bachelor of Science in Artificial Intelligence, Dawood University of Engineering and Technology Oct 2022 - Present

Relevant Coursework: AI, Machine Learning, Data Science.

SKILLS

Technical Skills	Curriculum Development, Classroom Management, Online Learning Platforms
Soft Skills	Communication, Time Management, Teamwork, Student Engagement
Languages	English, Urdu

EXPERIENCE

Teacher (Primary to High School) Oct 2022 - Dec 2022
Hira Scientific Public School, Karachi

- Taught classes from primary to high school, adapting lessons to meet the needs of students at different academic levels.
- Developed and delivered O Levels curriculum, ensuring alignment with international standards.
- Engaged students with interactive learning techniques, resulting in improved academic performance.

Teacher (Part-Time) Oct 2022 - Present
Home Tuition, Karachi

- Provided personalized tuition for O Levels and high school students, helping them excel in examinations.
- Utilized various teaching methodologies to cater to students of different learning styles.

PROJECTS

AI and Education Integration Ongoing
Conducting research on the integration of artificial intelligence in education to develop personalized learning experiences for students. Focused on how AI can assist teachers in identifying student strengths and areas for improvement.

EXTRA-CURRICULAR ACTIVITIES

- Actively participate in community outreach programs to promote education in underprivileged areas.
- Volunteered for educational workshops to guide students in career planning and higher education.

LEADERSHIP

- Led small group study sessions for O Levels students to enhance understanding of complex subjects.
- Organized events in collaboration with educational institutions to encourage STEM learning.
